

## OBJECTIVE

---

It is my objective to join a design team where my design talents will contribute to and ensure the success of your company.

## PROFESSIONAL EXPERIANCE

---

### MULTIMEDIA ART DIRECTOR

Simple Truths  
Naperville, Illinois  
November 2006 - Current

- Movie and DVD production. I create short inspirational movies that reinforce themes from their respective inspirational book. I use Adobe After Effects to create the movies and Adobe Encore to create the DVD masters.
- Project management. I serve as the project lead for outsourced movie projects.
- Web site manager. I am the lead of a team who is responsible for all web site activities including the upkeep of five online stores, over forty movie sites and all online marketing. I use Adobe Dreamweaver for web site production and have fluent knowledge of Nexternal which is used as the store's CMS (Content Management System) and Coremetrics which is used as the analytics software.

### GRAPHIC DESIGNER

Full House Productions  
Charlotte, North Carolina  
May 2005 - September 2006

- Graphic design. I was responsible for the design and layout of print material including event flyers, posters, menus, publication ads, emailers, and brochures.
- Event Branding. I created the branding for many special events and venues which included logo design.
- Web design. I Designed and Produced several bar/night club web sites, developed various online flash elements, and was responsible for updating online content for events and promotions across the US.
- 3D animation. I provided 3D materials for television commercials for broadcast.

### WEB DESIGNER, FLASH DEVELOPMENT SPECIALIST

eSearch Logistics  
Wilmington, North Carolina  
February 2005 - May 2005

- Responsible for all flash development in new web site projects.
- Worked collectively with a team during the design and conception of new web site projects.
- Implemented Search Engine Optimization (SEO) to existing web sites and new web site projects.
- Incorporated administrative systems (Cutenews) to existing web sites and new web site projects.
- Interacted with clients during the design and SEO stages of the web site production process.

### 3D MODELER

Exuro Studios  
Cayce, South Carolina  
August 2002 - October 2002

- Responsible for transferring drawings, schematics, and ideas into 3D computer models using Maya.

## EDUCATION

---
